❖ Doctors and other health care professionals in Florida Complete Care's network are listed in **Section C**. Pharmacies in our network are listed in **Section E**.

You can use the Index in the back of the Directory to find the page where a provider or pharmacy is listed.

B. Background Information about Florida Complete Care's Network Providers

B1. Key terms

The Interdisciplinary Care Team (ICT) is a key component of the Care Management process. Collaborative Interdisciplinary Care Team meetings, inclusive of the enrollee, the enrollee's healthcare provider(s), and Care Management team enrollees work together to address a enrollee's unique and diverse needs.

Florida Complete Care (FC2) develops a comprehensive, person-centered, and strengths-based Individualized Care Plan (ICP) for each enrollee based on information obtained through the Health Risk Assessment (HRA), supplemental assessments, and care planning tools. The HRA assesses the enrollee's medical, functional, cognitive, psychosocial, and behavioral health (including mental health and substance use), as well as environmental needs and social determinants of health (SDoH). These identified needs are incorporated into the ICP to ensure a holistic and individualized plan of care.

This section explains key terms in our Directory.

- **Providers** are professionals such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, behavioral health, supplies, drugs, equipment, and other services.
    - The term **providers** includes facilities such as hospitals, clinics, skilled nursing facilities, and other places that provide medical services and medical equipment.
    - Providers that are a part of our plan's network are called **network providers**.
- **Network providers** have contracted with us to deliver services to members of our plan. Network providers participate in our plan. That means they accept members of our plan and provide services our plan covers. When you use a network provider, you usually pay nothing for covered services.
- A **Primary Care Provider** (PCP) is a provider who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
    - Oncologists care for patients with cancer.
    - Cardiologists care for patients with heart conditions.
    - Orthopedists care for patients with certain bone, joint, or muscle conditions.
- You may need a **prior authorization** for a specialist or someone that isn't your PCP. A **prior authorization** is different than a referral. It means that **Florida Complete Care** (not your PCP) must give you approval **before** we'll cover a specific service, item, or drug or an out-of-network provider. If you don't get a referral or prior authorization, Florida Complete Care may not cover the service, item, or drug.
    - Prior authorization **aren't** needed for:
        - emergency care;
        - urgently needed care;
        - kidney dialysis services that you get at a Medicare-certified dialysis facility when you're outside the plan's service area; or
        - services from a women's health specialist.
        - preventative care (includes flu vaccine and diagnostic screening)

- routine foot care
- hearing exams
- vision exams

- Additionally, if you're eligible to get services from Indian health providers, you may use these providers without a referral. We must pay the Indian health provider for those services even if they're out of our plan's network.
- More information on referrals and prior authorization is available in Chapter 3 and Chapter 4 Medical Benefits Chart of the Evidence of Coverage.

- You'll also be assigned a care coordinator/case manager. Florida Complete Care's Interdisciplinary Care Team (ICT) is inclusive of the enrollee, the enrollee's healthcare provider(s), and Care Management team. Everyone on the care team works together to make sure your care is coordinated. This means that they make sure that you get all of the tests, labs, and other care that you need, and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that they can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers. Members of your care team may include:
  - A **Care Coordinator/Case Manager** that helps you manage your medical providers and services. Care Coordinators assist in the coordination of care, provide administrative assistance, and support communication with clients.
  - Your **Primary Care** Provider.

Your Care Coordinator/Case Manager will also help you find other providers of medical or behavioral health if you need a specialist or other health care provider. That way, you'll get the right provider to help you with your concerns..

B2. Wait times for primary care and behavioral health

- We must provide you with access to primary care and behavioral health services within the following timeframes: immediately for urgently needed services or an emergency;
- within seven days for services that aren't an emergency or urgently needed, but you require medical attention; or
- within thirty days for routine and preventative care.

B3. How to choose a Primary Care Provider (PCP)

First, you will need to choose a Primary Care Provider (PCP). You can choose any PCP in our network who is accepting new members.

- To choose a PCP, refer to the list of providers in **Section C** and choose a provider:
  - that you use now, **or**
  - who has been recommended by someone you trust, **or**
  - whose offices are easy for you to get to.

As a Florida Complete Care-Duals VIP, you must choose a PCP. You can do this by selecting one from our Provider Directory, or by calling our Member Services at the phone numbers listed in the footer of this directory.

- If you don't choose a PCP in our network, Florida Complete Care will choose one for you.
- If you want help in choosing a PCP, please call Member Services at 1-833-FC2-PLAN (1-833-322-7526), TTY users should call 711, from 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. For more information, visit FC2Healthplan.com.
- If you have questions about whether any service or care that you want or need is covered, talk to your Care Team or call Member Services at 1-833-FC2-PLAN (1-833-322-7526), TTY users should call 711, from 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30 and ask **before** you get the service or care.

B4. How to access Florida Complete Care's network providers

You must get all of your covered services from providers within our network. If you use providers who aren't in Florida Complete Care's network **(without prior authorization), you may have to pay the bill.**

> A **prior authorization** is an approval from Florida Complete Care to seek services outside of our network or to get services not routinely covered by our network **before** you get the services.

The only exceptions to this rule are when you need urgent or emergency care or dialysis and can't get to a provider in the plan, such as when you're away from home. You can also go outside the plan for other non-emergency services if Florida Complete Care gives you permission first. Under this plan, members may utilize their Point of Service (POS) benefit to consult with their specialist outside of the contracted provider network.

- You may change providers within the network at any time during the year. If you've been using one network provider, you don't have to keep using that same provider. It's also possible that your PCP might leave our plan's network of providers, and you'd need to choose a new PCP. Change requests received after the 15th day of the month will usually be effective on the first day of the following month.

  To change your PCP, call Member Services. When you call, be sure to tell Member Services if you are seeing specialists or getting other covered services that need your PCP's approval (such as home health services and durable medical equipment). Member Services will help make sure that you can continue with the specialty care and other services you have been getting when you change your PCP. They will also check to be sure the PCP you want to switch to is accepting new patients. Member Services will change your membership record to show the name of your new PCP and tell you when the change to your new PCP will take effect. They will also send you a new membership card that shows the name and phone number of your new PCP.

- Florida Complete Care works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide.

- If you need a provider and aren't sure if they offer the accommodations you need, Florida Complete Care can help you. Talk to your care coordinator/case manager for assistance.

C. Florida Complete Care's List of Network Providers

This part of the Directory includes a list of Florida Complete Care's network providers who participate in and accept Florida Complete Care. It contains:

- **Health care professionals** including primary care providers, specialists, outpatient mental health providers, and behavioral health providers;
- **Facilities** including hospitals and nursing facilities; and
- **Support providers** including assisted living facilities and home health agencies

> **Cultural competence training** is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.

Providers are listed in alphabetical order by last name. You can also find the provider's name and the page where the provider's additional contact information is in the Index at the end of the Directory. Providers are listed in alphabetical order by last name in the Index. In addition to contact information, provider listings also include specialties and skills, such as languages spoken (including American Sign Language (ASL)) or completion of cultural competence training.
